

§ 300.27 Wool products containing superimposed or added fibers.

Where a wool product is made wholly of one fiber or a blend of fibers with the exception of an additional fiber in minor proportion superimposed or added in certain separate and distinct areas or sections for reinforcing or other useful purposes, the product may be designated according to the fiber content of the principal fiber or blend of fibers, with an excepting naming the superimposed or added fiber, giving the percentage thereof in relation to the total fiber weight of the principal fiber or blend of fibers, and indicating the area or section which contains the superimposed or added fiber. An example of this type of fiber content disclosure, as applied to products having reinforcing fibers added to a particular area or section, is as follows:

55% Recycled Wool
45% Rayon
Except 5% Nylon added to toe and heel

[29 FR 6626, May 21, 1964, as amended at 45 FR 44262, July 1, 1980]

§ 300.28 Undetermined quantities of reclaimed fibers.

(a) Where a wool product is composed in part of various man-made fibers recovered from textile products containing underdetermined quantities of such fibers, the percentage content of the respective fibers recovered from such products may be disclosed on the required stamp, tag, or label, in aggregate form as "man-made fibers" followed by the naming of such fibers in the order of their predominance by weight, as for example:

60% Wool
40% Man-made fibers
Rayon
Acetate
Nylon

(b) Where a wool product is composed in part of wool, or recycled wool and in part of unknown and, for practical purposes, undeterminable non-woolen fibers reclaimed from any spun, woven, knitted, felted, braided, bonded or otherwise manufactured or used product, the required fiber content disclosure may, when truthfully applicable, in lieu of the fiber content disclosure otherwise required by the Act and regula-

tions, set forth (1) the percentages of wool or recycled wool, and (2) the generic names and the percentages of all other fibers whose presence is known or practically ascertainable and (3) the percentage of the unknown and undeterminable reclaimed fibers, designating such reclaimed fibers as "unknown reclaimed fibers" or "undetermined reclaimed fibers," as for example:

75% Recycled Wool—25% Unknown Reclaimed Fibers.
35% recycled Wool—30% Acetate—15% Cotton—20% Undetermined Reclaimed Fibers.

In making the required fiber content disclosure any fibers referred to as "unknown reclaimed fibers" or "undetermined reclaimed fibers" shall be listed last.

(c) The terms *unknown recycled fibers* and *undetermined recycled fibers* may be used in describing the unknown and undeterminable reclaimed fibers referred to in paragraph (b) of this rule in lieu of the terms specified therein, provided, however, That the same standard is used in determining the applicability of the term *recycled* as is used in defining "recycled wool" in section 2(c) of the Act.

(d) For purposes of this rule undetermined or unascertained amounts of wool or recycled wool may be classified and designated as recycled wool.

(e) Nothing contained in this rule shall excuse a full and accurate disclosure of fiber content with correct percentages if the same is known or practically ascertainable, or permit a deviation from the requirements of section 4(a)(2)(A) of the Act with respect to products not labeled under the provisions of this rule or permit a higher classification of wool or recycled wool than that provided by Section 2 of the Act.

[29 FR 6626, May 21, 1964, as amended at 45 FR 44262, July 1, 1980; 45 FR 49542, July 25, 1980]

§ 300.29 Garments or products composed of or containing miscellaneous cloth scraps.

(a) For wool products which consist of, or are made from, miscellaneous cloth scraps comprising manufacturing
